Reasons CENTARIS™

Is the best path to Microsoft Teams Voice

Connect MS Teams to Voice

Enable voice in the cloud to provide full calling capabilities into Microsoft Teams.

Cloud Based

Leverage cloud-based Microsoft Teams and Centaris services to connect to any SIP Provider or phone system. Built with the latest technology to assure high availability.

Secure

Cenatris's Connect Service is built on a private, secure, monitored network. That supports full end-to-end encryption and secure access control.

Flexible and Simple

Connect your existing phone systems to Microsoft Teams or add a headset and use Teams as your softphone. Migrate just a few or all of your employees to the new service – at your own pace.

Carrier Grade

Leverage our carrier-grade services, SIP Trunking and SBC solutions to aggregate carriers. Our partner, Ribbon has been providing services to carriers for over two decades.

Pay as you Grow

A consumption-based model that allows you to grow at your own pace. Enable your work at home staff or your entire workforce based on your business requirements.
